An amendment to the instant application filed by applicants on February 28, 2003 was labeled a preliminary amendment (even though mailed subsequent to the mail date of the first office action of February 25, 2003). As the amendment is not in response to the issues raised in the office action mailed February 25, 2003, applicants are officially advised that this amendment has not been treated as a response to the previous office action and the time period for response set in that office action continues to run from the mail date of the previous office action.
